

DRYER – Life

REGION:	Europe
MACHINE:	PM3
POSITION:	7th Top
GRADE:	Coated Graphic
BASIS WEIGHT:	60-200 gsm
SPEED:	500-1,100 mpm

 SpiralFine™

OBJECTIVES:

To increase life versus woven designs from competition.

BACKGROUND:

- Sheetside abrasion was causing conventional woven fabrics to be removed after 120 days.

RESULTS/VALUE

AstenJohnson's SpiralFine, with increased wear volume from flat coils, almost doubled life (from 120 to 224 days).
